

DAGIO

Wet and dry cleaning cloth

Various paper and plastic tubes for each type of offset printing machine are available to produce not only regular sizes but also customized special sizes

Using woodpulp and polyester double structure fabric, the tissue is uniform, smooth and soft, minimizing damage to the blanket.

Using eco-friendly raw materials that have been verified domestically (VOC 200℃) or higher, drying is constant, and the amount of cleaning solution is adjusted according to the characteristics of the printing paper to minimize paper waste.
